NEBRASKA DEMOCRATS KILL A

CLEVELAND RESOLUTION.

WON'T GO THAT FAR

QUOTING HIM AGAINST HIMSELF

PLATFORM REGITES THE DECLAR-ATION OF INDEPENDENCE.

And it's Silver, First, Last and all the Time. Factional Fight Still On-State Officers Nominated.

Omaha, Aug. 22.-If an effort was made to conciliate any warring elements in the ranks of Nebraska Democrats it was not in evidence at the state Democratic convention today. Prior to the session there was some talk about the silver and gold wings of the party combining but if such plan was seriously contemplated it was early abandoned. From 2 o'clock, when Chairman Smith convened the body, until 11 tonight, when the curtain went down in the hall, silver was the only apparent financial problem before the convention. But it was essentially a convention of the advocates of the white metal in the party and the other wing ignored the mutiny of today and will convene at Lincoln September 5.

Edgar Howard was made permanent chairman without opposition and the following nominations were made by acclamation. For supreme court judge E. J. Phelps; for regents of the state university, Dr. H. S. Blackburn and J. J. Kettle.

After speeches of minor importance bubling over with silver sentiment and oppositon to the A. P. A., the com-

mittee reported resolutions as follows: We, the Democrats of Nebraska in convention assembled do reaffirm our faith in the principles written in the declaration of American independence and emphasized by Jefferson and Jack-son, namely. That all men are crea-ted equal, that they are endowed by their creator with certain inalienable rights, among which are life, liberty and the pursuit of happiness; that Rovernments are instituted among men governments are instituted among men to secure these rights and that govern-ments derive their just powers from the consent of the governed; and we de-mand that all of the departments of government, legislative, executive and judicial, shall be administered in ac-cordance with these principles. We affirm the declaration made by

the last Democratic state convention held in Nebraska, September 26, 1894. We believe the restoration of the mon ey of the constitution is now the para-ey of the constitution is now the paraunt issue before the country, and insist that all parties shall plainly state their respective position upon the ques-tion, in order that the voters may in-telligently express their preference We therefore declare ourselves in favor of the immediate restoration of free and unlimited coinage of gold and sil-ver at the present legal ratio of 16 to 1, as such coinage existed prior to 1873, without waiting for the aid or consent of any other nation, such gold and sil-ver coin to be a full legal tender for all debts, public and private. We send greting to our Democratic

brethren throughout the union who are making such a gallant fight for the restoration of bimetallism and congrat-

ulate them upon the progress made. We deprecate and denounce as un-American and subversive of the princi-ples of free government any attempt to control the action or policy of the political parties of this country by se-cret cabals or organizatons of any cret cabals or organizations of any character and warn the people against the danger to our institutions which lurks under any such secret organiza-

tion, whether on religious, political or other differences of opinion. Recognizing that the stability of our institutions must rest on the virtue and intelligence of the people we stand, as in the past, in favor of the free com-mon school system of the state, and de-clare that the same must be perpetua-ted and receive liberal financial support and that the management and con trol of said school systems should be non-sectarian and non-partisan. The Democracy of Nebraska ap-proves and commends the declaration

of President Cleveland in the past in condemning the pernicious activity of incumbents of federal offices under the government in attempting to control the policy and nominations of their parties, and we hereby recommend the ronewal of the policy of his first administration in that regard.

THAT WAS GOING TOO FAR.

A delegate attempted to place the following before the convention as the minority report: We commend the ad-ministration of President Cleveland as being able, patriotic, and honest and reaffirm the platform adopted by the Democratic national convention at Chicago in 1892.

Scarcely had the first word been utscarcery had the list word been ut-tered when the whole convention was protesting. There was such a roar that order was not established for ten min-utes, when the offending resolution was tabled without comment. tabled without comment.

Tonight Hon. W. J. Bryan and other Nebraska Democrats addressed the convention on financial issues. enoddna!Tfi deca go oaftokocanf eta

ing Money for Bribes. Harrisburg, Pa., Aug. 22.—United States Senator Quay came to Harris-burg this afternoon and will remain until after the Republican state convention which is to meet next Thursday. A caucus of his followers has been called to meet in this city on Tuesday evening. Senator Quay tonight issued the following statement:

"The leaders of the combination against me have given up all hope of defeating me except by means of the direct bribery of fifteen or twenty of the delegates who have hitherto been favorable to me. To accomplish this result, agents of the combination will be sent to almost every county in this result, agents of the combination will be sent to almost every county in this state. These will tempt the men who have been elected delegates, with large sums of money. I hope my friends will be on their guard and will promptly take measures to make public the efforts of the combine bribers and will speedily bring them to justice. Without such desperate methods it is impossible for me to lose control of the ossible for me to lose control of the

MUST BE FOR PREE SILVER. Peculiarity of a Benevolent Society Down

Austin, Tex., Aug. 22.—Today the Knights of the Silver Cross claiming to be a benevolent association from Missouri, asked of the commissioner of insurance permission to do business in this state. A peculiarity of the order is that all members are required to pledge themselves as fearless advocates of the free and unlimited coinage of silver at the ratio of 16 to 1 independent of the advice or opinion of the rest of the world.

It is believed here that it is a scheme to gather money and organize clubs in the interest of silver, though its bylaws are drafted with benevolent insurance clauses, and provisions throughout.

OLD OFFICERS ARE RE-ELECTED.

Supreme Council Legion of Honor Hold th Blennial Election, Detroit, Aug. 22.—The bienial election of supreme officers was held at today's session of the supreme council of the Legion of Honor. It resulted in the re-election of the following: Supreme Commander John M. Grinnell, New Jersey; Vice Commander W: N. Davenport, Massachusetts; Orator W. D. Mansfield, California: Secretary. D. Mansfield, California; Secretary Adam Warner, New York; Treasurer George W. Kendrick, Jr., Pennsylvania Chaplain Dr. Charles C. Some minor amendments regarding the insurance feature of the order were read and a committee appointed to pre pare a new ritual. Buffalo will be the place of holding the next biennial

TWO MILLION DOLLARS APART. Big Suit which Involves a Huge Piece of

Alleged Rascality. San Francisco, Aug. 22.-A suit in which the amount involved is almost which the amount involved is almost \$2,000,000 was commenced today. It is a suit for an accounting brought by Theodore Fox against Jonn W. Mackay, United States Senator John P. Jones, the Comstock Mining company and the Consolidated California and Virginia Mining company. When the case was first set for hearing John W. Mackay was in New York where his deposition was taken to be used in the trial, but to the general surprise he appeared in court this morning with his counsel. The plaintiff alleges that the defendant, controlling a majority the defendant, controlling a majority of the stock of the Consolidated Cal-ifornia and Virginia Mining company entered into a contract with the Comentered into a contract with the Com-stock Mill and Mining company, in which they were also interested, to mine ore at \$7 per ton. Large quanti-ties of ore were milled at this price when it is alleged that \$4 per ton was a reasonable and customary price paid for such kork. The plaintiff avers that by reason of the contract, which is alby reason of the contract, which is al-leged to have been fraudulent, the stockholders in the Consolidated Vir-ginia were overcharged to the amount

of \$1,829,000

of \$1.829.000.

The plaintiff asks a decree finding the facts to be as alleged in the complaint, and for a judgment against the defendants requiring them to pay the amount named into the treasury of the Consolidated Virginia for the benefit of the stockholders.

The defense claims that the plaintiff is not a stockholder nor was such when the contract was made, and will move for non-suit. The deposition of Senator Jones was read in which he denied the charges of fraud and pronounced the contract fair and much more other that could have been made at that time.

WINDOW AND GREEN GLASS. men Want More Wages.

Pittsburg, Aug. 22 .- A meeting of win dow glass manufacturers of the coun-try will be held at the Hollenden House Cleveland, Ohlo, next Monday for the purpose, if possible, of forming a na-tional combination. The failure of the purpose, if possible, of forming a national combination. The failure of the western manufacturers and workmen to agree upon a wage rate for the coming "fire" will also likely be considered. The Green Glass Blowers League and green glass manufacturers wage committees met here this afternoon to arrange a scale for the ensueing year. The workmen demand an advance of 14 per cent over present wages, and the manufacturers are opposed to granting the increase, but both parties are hopeful of a settlement today.

Both was that their horse was not in condition.

"We made a mistake" they said, "in sending him to Cleveland and after the Freeport race. The other horse was on edge, ours was not."

Colonel Taylor, owner of Patchea, said: "I knew that my horse could beat him any part of it from 199 yards to a mile. Had the race today ocen on the Terre Haute track with no wind the first heat would have been less than two minutes."

Both horses will go to Fleetwood ful of a settlement today.

JOE DEFEATS JOHN & GENTRY IN STRAIGHT HEATS.

Does the First in 2:05 3-4, and the Others In 2:07 3-4-John R. Gentry's Friends Pained to See How Easily the Thing is Lone-Wind Blows a Gale from the West, Interfering with Any Chance for Sensational Time-Gentry Not Looking Well-Susie G. of Kansas Cuts a Figure in the 2:12 Pace.

Chicago, Aug. 22.-Joe Patchen today won the great match race against John R. Gentry in straight heats. The race took place on the famous Washington park track, but as a wind that amounted to almost a gale blew all afternoon, sensational time performance was out of the question. The three heats were covered in 2:05¼; 2:07¼; 2:07¼.

Nevertheless the contest is regarded is one of the most important that has taken place on the trotting or pacing turf. Patchen's victory was decisive and seems to put his claim to first place among harness racers beyond dispute. Twelve thousand people saw the race and the fact that betting was prohibited did not deter the crowd from showing ad egree of enthusiasm that is seldom equalled at a horse race. Gentry was undoubtedly a slight favorite in the public well-wishing, but Patchen was cheered just the same. In what little betting there was outside of the track Gentry also ruled a favorite at

track Gentry also ruled a favorite at about 10 to 9.

In the end of the second heat, old time horsemen were pronouncing it the greatest race in history. In these two miles Gentry was a close contestant and so, considering what was at stake, the contest was regarded as unprecedented. But the third heat went to the

ented. But the third heat went to the big black so easily that veterans were disposed to qualify their opinion as to the pre-emimence of the race.

The start of the race, advertised to be about 2:30, was delayed in the hope that the wind might die down. It was blowling strong from the western prairies which had robbed it of its invigorating qualities so that the conditions in each ing strong from the western prairies which had robbed it of its invigorating qualities so that the conditions in each race were for good time performance. But at 3:15 the two glants of speed were called upon the track, although there had been no decrease in the arid gale. Curry and McHenry, the drivers, stood in the center of the track and tossed a coin for advantage of position. Curry won and thus got the pole. While appearances do not count for a great deal in the case of horses, Patchen's looks were so decidedly better that it caused misgivings in the minds of Gentry's supporters. Patchen appeared full of life and spirit. Gentry looked tired and when they scored for the first time, Patchen clearly showed the speed. Gentry oroke on the second attempt and acted ugly. They were sent away on the fifth score together. Patchen moved slightly away and for over a quarter of a mile led by nearly a length, the first quarter being in :22. On the second quarter they had the wind at their backs and raced the distance in :30½. Nearing the pole Gentry began to crawl up and his friends tore sections out of the grand stand when he went past Patchen at the far turn as if it was no trouble at all. The third quarter was covered in 30 seconds flat, the fastest of the race. Then turning into the home stretch, Gentry still led by a length or the race. Then turning into the home stretch, Gentry still led by a length of more and his supporters were buoyant, but on the way to the wire the crowd was surprised to see Patchen without being touched by the whip come up on the outside and on his own gameness senator Jones was read in which he de-nied the charges of fraud and pronoun-ced the contract fair and much more advantagious to the stockholders than

test of their speed.

In the next heat McHenry let Patchen go out and set the pace all the way around to the stretch. Then ensued a long and furious drive, McHenry using the whip savagely on Gentry who overcame all but about three feet of the two lengths difference that had sep arated them at the head of the stretch but Patchen had both speed and endurance and won. Time by quarters 35%;

22: 314; 304;
Never did a horse show greater game ness than Gentry displayed in the last quarter. For a quarter of a mile he stood the lash, straining every nerve and being apparently in fistress at the way, yet never once did he show the slightest inclination to break. The third heat was easy all the way for Patchen who led and won by two

ngths. Time for quarters 31%; 32%; 3114: 314.

Negro Man Puts Up the Black Flag on Small Boat. Baltimore, Md. Aug. 22.—The harbor police boat captured last night the first piratical craft that has been seen in the Chespeake for many a day. Char-les Collins, a St. Mary county negro of immense proportions, was arrested as a suspicious character. He has been the commander of the fleet-sailling two-masted cance, which he stole early in the summer from a yachtsman on St. Mary's river. In company with several other negroes, who have not yet been captured. Collins organized a serties of piratical expeditions down the bay. Washington, Aug. 22.-Ex-Senator Manderson today telegraphed Comp troller of the Treasury Bowler that he had forwarded a motion to refer the whole question of the payment of the sugar bounty appropriation to the secretary of the treasury on account of the peculiar language of the appropriation, which he claims takes the matter out of the hands of the regular accounting officers of the government. The language upon which the motion is based is as follows:

paid, shall be paid upon presentation of such proof of manufacture and produc-"The bounty being authorized to be tion as shall be required in each case by the commissioner of internal revenue with the approval of the secretary of the treasury and under such regulations as shall be prescribed by the commissioner of internal revenue with the approval of the secretary of the treas-ury and for the payment of such sugar bounty the secretary of the treasury is authorized to draw warrants on the treasry of the United States for such sums as shall be necessary, which sums shall be certified to him by the commissioner of internal revenue, by whom the bounty shall be disbursed and no boun-ty shall be allowed or paid to any per-

sy shall be allowed or paid to any per-son as aforesaid upon any quantity of sugar less than 500 pounds."

If Mr. Manderson's motion prevails it will take the question of the bounty payment entirely out of Mr. Bowler's hands. While the language of the act seems to give color to the claim that the secretary of the treasury should is-sue warrants directly on the certificates the secretary of the treasury should is-sue warrants directly on the certificates of the commissioner of internal revenue it is pointed out that the language of this appropriation is identical with that of the original McKinley bounty which language was not treated either by the last or the present administration as taking these disbursements out of the hands of the regular accounting officers of the government.

CASE OF MRS. MAYBRICK. Home Secretary Thinks it His Duty to In-

London, Aug. 22.—T. P. O'Connor, referring to the case of Mrs. Maybrick who is serving a term of imprisonment in prison for poisoning her husband, and for whose pardon numerous petitions have been presented from English men and Americans, said in regard to her, that there was an intense feeling. men and Americans, said in regard to her, that there was an intense feeling of dissatisfaction by American men and women with the trial and conviction and he believed that the lord chief jus-tice shared this dissatisfaction. He thought the time had come when there should be a revision of the unfortunate woman's sentence.

Paris, Aug. 22. The Temps publishes a letter from Tamatave, Madagascar, which says the French are incensed at the commander of the American cruiser Castine for refusing to salute the gar-rison and to accord other customary courtesies on the ground that America has not recognized the French protec-torate. The Americans have also caused tritation by persisting in a per-sonal investigation of the Waller case. The Tamatave letter adda that the commander of the Castine consulted United States Consul Weller in not

saluting the garrison. ARBITRATION IS THE WORD.

Topeka, Kan. Aug. 11.—The state military board and adjutant general may meet with trouble in carrying out their proposed scheme of holding an encampment of the state militia at Emporta. They expect to defray the expenses of the outling from the appropriation made by the last legislature to use in case the militia should be needed for active service during the fiscal years ending June 31, 1954, and 1897. The legislature, it will be remembered declined to make an appropriation at its last session for a state encampment, but it did appropriate 20,000 to be used in case of an emergency. The estimated coat of the proposed encampment is \$15,000.

If after the encampment a riot should break out, and the militia should be needed for actual service, there would be but \$5,000 of the appropriation left with which to defray its expenses in the field. State Auditor Cole has a way of refusing to audit wouchers drawn on special appropriations for purposes other than those specified in the appropriation bill, and it is not unlikely that he may not be able to see his way clear to audit vouchers for the state encampment expenses.

prints the following: Headquarters were opened in this city this afternoon looking toward the success of an expedition already par-tially organized in behalf of the freeiom of Cuba. The nucleus of the expedition consists of 100 picked men who are ready to go at any time. The leaders, all of whom are prominent, say there is no doubt about the trans-

fer of the men to the island.
Orville Shefby, son of "Fighting"
General Joe Shelby is at the head of the movement. He and a few of his closest friends it is learned, held a meeting last night lasting until 1:30 meeting last night lasting until 1:20 this morning at which plans for carrying out the expedition were suggested and earnestly discussed. The following named gentlemen are said to have been present and to have participated in the conference: Ex-Assistant Prosecuting Attorney T. A. J. Mastin, B. G. Crosby of Butler, Mo., son of Rear Admiral Crosby of the United States Navy; J. Russell Lincoln, distantly related to the martyred president; Jos Brooks, John Warner of Linnaeus, Mo, and others.

Spain is Recommended to Try a Dose of Antonomy on Cuba.

Autonomy on Cuba.

London, Aug. 22.—The Havana correpondent of the Times, writing upon the gravity of the situation, urges the necessity of large concessions in the direction of autonomy or even loyal Cubans will drift into disloyalty.

The only alternative is a costly campaign in men and money, the correspondent adds. followed by the occupation of the island by 60,000 men for a decade. A remarkable characteristic of the rebellion is the higher strata of society now joining the insurgent ranks. I am unable authentically to discover the sources of the rebels funds. Very little is obtained in Cuba. I am assured from revolutionary sources that the Cuban colonies at Key West, Fla., subscribed 77,069 to 110,000 weekly to the revolutionary committee in New York,

revolutionary committee in New York, but I doubt whether it is paid with regularity.

In an editorial on the foregonig the Times also says: "The failure of Campos to suppress the rebellion has caused bitter disappointment in Madrid. We sympathize heartily with Spain's patriotic determination to hold Cuba at any sacrifice and we admire her energy, however misdirected, in resisting the program for further disintergration and plots concocted in foreign countries to foment rebellions. At the same time it is suicidal folly for a nation obstinately, to refuse to look facts in the face. Englishmen have no desire to see Cuba separated from Spain. The movement for americans of all parties, and for obvious political reasons annexation to America would be regarded with little favor by British statesmen. We should be well pleased if Spain were able to arrive at a practical settlement with her rebellious subjects but that demands a quality of statesmanship higher than has been displayed, and if General Campos is to gain victory he must show greater energy and ingenuity than heretofore. General Campos only opened his cyse after the fight at Bayamo on July 21 to the fact that the insurgents were armed, disciplined, and provided with ammunition. He has tried to patch up a reconciliation and has equally failed. The rebeis have been quick to profit by mistakes. A three years' campaign will cost Spain 20,000,000 pounds sterling, which she can not afford. Giving autonomy will be a bitter pill, but unless it is swallowed the embryo movement for annualism to America may gather strength until becomes irrespetable.
